

**Tunas Sawa Erma (TSE) Group's Statement  
on Plasma Plantation Development in PT Dongin Prabhawa's Oil Palm Plantation**

MERAUKE, August 30, 2023 – PT Dongin Prabhawa (DP) is an oil palm plantation company under Tunas Sawa Erma (TSE) Group, which has demonstrated its commitment to allocate 20% of its lands with the Rights to Cultivate (HGU) to Iska Bekai Cooperative for plasma plantation development. This development is mandated by Indonesian laws and regulations, and the HGU Transfer Permit has also been issued to Iska Bekai by the Ministry of Agrarian Affairs and Spatial Planning/National Land Agency (ATR/BPN).

In the process of carrying out this development, Iska Bekai Cooperative decided to appoint PT Tritama Lestari as a partner in accelerating Plasma Plantation Development, as instructed in Merauke Regent Letter Number 602.2/7805 dated November 17, 2022.

With both the HGU Transfer Permit and the instruction letter of Merauke Regent, Iska Bekai Cooperative will be working together with PT Tritama Lestari on a plasma plantation to establish it independently.

Meanwhile, PT Dongin Prabhawa will continue making sustainable community development efforts across various fields through its Corporate Social Contribution (CSC) initiatives. It does so in accordance with its philosophy to build a harmonious, beneficial, and sustainable relationship with the community and other stakeholders for the sake of improvement and prosperity.

Regards,

**Tunas Sawa Erma Group Management**
